

ALPHA Z-SERIES

Chassis Optimization

Chassis integrations refinements supports multi-purpose bus body and various powertrain applications, providing better solution to customers' requirements.

Entrance Door

Pneumatic Outward Swing Entrance Door with a Anti-Pinch System installed for enhanced safety, which stops the door from closing in the event that it detects an object or person being pinched by the closing door.

UNECE R66 Superstructure*

The bus structure has been tested and approved in compliance to the requirements of UNECE R66. This is an International Testing Standard which covers the strength of the bus superstructure in the event of a rollover incident, further emphasizing the company's commitment to safety.
